

*The following letter was sent to all elected Representatives in Local Chairman Pfeifer's home district:*

Mr./ Mrs. XXXXXXXXX

Please help the unions in their fight to retain their rights and the rights of their members. I am a member of the United Transportation Union who represents my rights under the collective bargaining agreement with the Union Pacific Railroad. Most of all, they also assist in my representation in Legislation. Prior to this, I was a Police Officer for the City of Belton and was a proud member of the Belton Police Officers Association and the Fraternal Order of Police. The American work force deserves the right to have representation of their choosing. As you are aware and I hope you agree, these organizations assist in providing fair pay, adequate benefits, a safe work environment, and equal opportunities of employment.

This is the same process in which we rely on our elected politicians to do the same in government. Please assist in providing support for labor.

Your response would be appreciated.

Yours Truly,

Nick Pfeifer
